AMERICA'S FOREMOST COMPOSER

Have you ever stopped to consider what a writer's name means on a popular Song? Probably not, altho the first thing most people do after playing a number that impresses them is to see "who wrote it."

The name of

AL. PIANTADOSI

means the same on a sheet of music as "STERLING" on silver or "18 KARAT" on gold, for the simple reason that there is hardly a home in the United States without one or more PIANTADOSI compositions on its piano.
